

Universal Absorbent Roll

Quickly and effectively absorbs any liquid spill. No more worrying about whether you're using the right absorbent. SpillTech® Universal Absorbent Rolls absorb anything liquid.

- 💧 SpillTech® Universal Absorbent Roll is constructed from melt-blown polypropylene with a low-linting outer layer and dimpled for additional durability.
- 💧 The heavy weight (400gsm) roll is 90cm tall and 40m long with perforations at 30cm and 60cm and every 25cm along the length, so users can simply tear off as much or as little as they need.
- 💧 The Universal Absorbent Roll will quickly absorb any liquid spill including fuels such as petrol, diesel and bio-diesel, oils, solvents, acids, bodily fluids, paint, dye and water.
- 💧 Designed for use on land only.
