

Oil Only Absorbent Roll

Quickly and effectively absorbs fuels, oils and petroleum based solvent while repelling water. Ideal for use on land and water.

- 💧 SpillTech® Oil Only Absorbent Rolls are constructed from melt-blown polypropylene with a low-linting outer layer and dimpled for additional durability.
- 💧 The heavy weight (400gsm) roll is 90cm tall and 40m long with perforations at 30cm and 60cm and every 25cm along the length, so users can simply tear off as much or as little as they need.
- 💧 The Oil Only absorbent will quickly absorb fuels such as petrol, diesel and bio-diesel, petroleum based solvents, vegetable oils and other non-water soluble liquids while repelling water.
- 💧 Ideal for absorbing large amounts of spilled petroleum based liquids on land or water.

Product Variations:

- 💧 Heavy Weight Oil Only Roll:
