

LI-ION BATTERY STORAGE & CHARGING CABINET

2 DOOR LI-ION CABINET

- Cabinet capacity: 170L
- Lightning protected sockets on 4 levels, each with 8 sockets (32 sockets total)

HEIGHT 1890mm

WIDTH 1090mm

DEPTH 460mm

DIL55LI-170

ABOUT THE CABINETS

The pH7 Lithium-Ion Battery Storage and Charging Cabinets deliver safe and efficient Li-Ion battery charging with smart technology and advanced fire protection.

Built with double steel walls featuring a 40mm gap, it meets FM6050, OSHA 1910.106, and NFPA 30 standards. Enjoy smart charging, real-time temperature and humidity monitoring, and an adjustable exhaust fan, along with four adjustable shelves offering 32 lightning-protected sockets.

Ideal for commercial and industrial applications, it provides a secure, user-friendly solution for optimal battery performance.

KEY FEATURES

- Double steel walls with 40mm gap
- Adjustable exhaust fan helps dissipate warm air
- Lightning protected sockets on 4 levels
- Temperature and humidity sensor easily visible
- Highly sensitive smoke detector and alarm provides early warning in the event of battery failure/fire
- Internal light automatically switches on when doors are opened
- Adjustable shelving with perforations to allow the movement of air
- Spill tray to capture leaks and spills
- Exterior isolation switches allows easy control of power allocation within the cabinet

SINGLE DOOR LI-ION CABINET

- Cabinet capacity: 83L
- Lightning protected sockets on 4 levels, each with 5 sockets (20 sockets total)

HEIGHT 1890mm

WIDTH 600mm

DEPTH 460mm
