

IBC SPILLSHIELD

PRODUCT CODE: **STHBIBCSS**

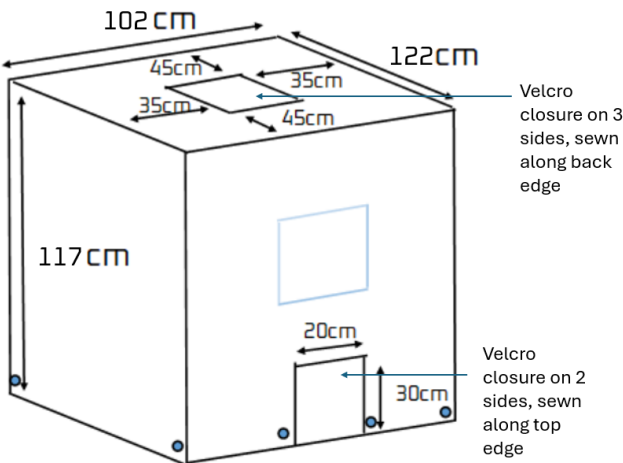

DESCRIPTION

Minimize spill risks and enhance workplace safety with our IBC SpillShield. Designed to fit snugly over standard IBC totes, this durable cover acts as a first line of defense against leaks and spills caused by accidental punctures or damage.

Ideal for hazardous chemical storage, industrial facilities, and spill prevention plans, this cover adds an extra layer of protection for your IBC totes and provides a practical solution to meet “Crest Locus” requirements.

KEY FEATURES/BENEFITS

- Excellent leak containment. Helps direct escaping liquids into the containment bund, reducing workplace hazards.
- Provides enhanced safety as it minimises uncontrolled liquid spurts, protecting personnel and surrounding areas.
- The SpillShield is durable and reliable. It is made from tough, chemical-resistant materials for long lasting protection.
- Very user friendly as the lid and tap covers can be secured with velcro, which enables easy access for filling and dispensing.
- Easy to install and provides a secure, tight fit which ensures quick deployment without interfering with dispensing operations.
