

CLEANAIR UNIMASK

— One mask for every application. Fully configurable.

PAINTING | POWDER COATING | FOOD PROCESSING | THERMAL CUTTING | MANUFACTURING | CONCRETE

ABOUT THE UNIMASK

The Unimask is a lightweight, versatile respiratory mask which is designed for maximum comfort, protection, and customisability. The Unimask can be configured for any job, and **all parts are interchangeable and replaceable**.

Combined with a CleanAIR PAPR system, the Unimask creates an area of positive pressure within the mask, improving comfort for the wearer while delivering optimal protection from airborne hazards.

PRODUCT INSIGHTS

- Suitable for use with beards
- Not classified as a close-fitting respirator
- No fit testing required
